**A Certificate of Continuing Education will be provided when learners have completed all of the following requirements;**

- Attendance at **both** full-day sessions; 8:30 am to 4:30 pm
- Successful completion of two practical assignments (electronic Word format)
- Completion of two online learner reflections
- Completion of online post-course evaluation

## Performance Objectives

Following the completion of the 2-day pain education course and practical applications the learner will be able to;

- Define and describe pain in the context of whole person care
- Identify barriers to effective pain management
- Complete a comprehensive pain assessment
- Differentiate between different types of pain
- Describe the principles of pharmacological and non-pharmacological management of pain
- Describe opioid and non-opioid medications used in managing pain
- Apply conversion ratios between different opioids and routes of administration
- Manage common adverse effects of opioids
- Evaluate the effectiveness of pain management interventions
